Ed:Guy M Hurst, 16, Westminster Close, Kempshott Rise, Basingstoke,
Hants, RG22 4PP, England. Telephone:(0256)471074.Int:+44256471074
Telex:265871(MONREF G) Quote"72:MAG60138 ATT G.HURST" in FIRST line.

EDITORIAL

I very much regret that due to illness I am unable at present to prepare the magazine and I have handed over this task to Peter Birtwhistle for the December issue. Please send any material for the magazine, normally sent to myself, to Peter at the address shown on the first page of TA. When I have recovered and can resume a further announcement will be made. The e-mail service is at present unaffected by these arrangements.

V503 CYGNI

G.M.Hurst, Basingstoke, reports an outburst of this UG object (cf E207) but at position 'a' rather than the original plotted place on the AAVSO chart. On 1988 Nov 12 (19.33UT) it was at mag 13.4 and on Nov 13 (19.34) at 13.9. On Nov 12 no star to magnitude 16.0 could be detected at the original plotted position.

LA PALMA PROJECT

Phil Charles and Mark Kidger at La Palma advise that the list of stars advised in E212 for the project has been cancelled. However they now plan to monitor the following:
SU UMa; RX And; U Gem; YZ Cnc
Please ensure intense coverage of these stars until further notice and email unusual activity.
